

INSTRUCTIONS FOR SKELETAL DBQ

INTENT: This is **NOT** a complete DBQ; we're looking at **components** here (they are ALL rubric points).

- 1) Go through each document and write your **summary for each**; don't forget to **categorize each document SOCIAL POLITICAL, ECONOMIC.**
- 2) Write an **introductory paragraph** per the intro formula for the prompt.
- 3) List the **topic sentences for each body and conclusion** (Post-Contextualization) paragraph. REMEMBER: They should coincide with your A, B, and C evidence in your intro.
- 4) **List the documents you would use in each body paragraph** to support your argument. Just their numbers will be fine, although you can jot down how you would use your summary here. Who knows; might result in a few points ;)
- 5) **On at least THREE of the documents state how that particular document specifically supports your argument.** (EXAMPLE: "This document supports my contention because . . .")
- 6) **List at least two pieces of evidence from your notes per body paragraph** to prove your argument.

Organizing/utilizing your notes/summaries is the reason we are doing this assignment.

REMEMBER: ITS NOT A BAD IDEA TO TIME YOURSELF!
